15TH INTERNATIONAL CONFERENCE ON OPERATIONS RESEARCH

OR in the Epoch of COVID19

La Habana, May 31-June 3, 2022

CONFERENCE SUMMARY REPORT

The 15th International Conference on Operations Research (15th-ICOR) was held between May 31 and June 3, 2022, at the Convention Center of Universidad de La Habana, La Habana. The conference was hybrid and was supported by sponsors and contributors from Latin America, France and Germany mainly. There was considerable support and cooperation from Scientific Societies and Networks of Latin America and of course, of Cuba. 79 people registered (with 43 from Cuba) coming from Mexico, Panama, USA, Germany, Francia, Ghana, Cameroon and India. 83 Advanced and MSC students participated in the tutorials on line.

With a focus on the post- Covid 19 health research the contributions of the delegates aborded different themes within the broad frame where Operations Research is ubicated.

The 15th-ICOR also addressed contemporary questions about the reliability of the scientific literature, reproducibility of research in other countries, initiatives for cooperation, and their relationship with joint research among participants.

The tutorials were:

A short introduction to wavelet methods in statistics (faced to face) Fabien Navarro, Université Paris I;

Evaluation of Ki-67 index with deep learning, Joseph Rynkiewicz, Université Paris I ;

Variational analysis in optimization and control, Boris Mordukhovich, Wayne State University.

The Plenary Lectures presented were

Optimization problems with variable domination structures and applications, C. Tammer, Martin Luther Universität Halle-Wittenber;

Variational analysis in optimization and control, Boris Mordukhovich, Wayne State University, Detroit, Michigan, USA;

Segregation through the multiscalar length". Madalina Olteanu, Université Paris -Dauphine (joint work with J. Randon-Furling, W. Clark and C. de Bezenac);

So you want to design and launch an MS program in analytics, James. Cochran, Alabama University;
Early Stopping rules and Iterative Learning algorithms, Alain Celisse, Université Paris I.

The presentations took place in sessions on Economic Modeling Applications, Numerical Analysis, Statistics in Medicine, Block Chain Applied, Mathematics and Decision Making Algorithms, Probability and Statistics on Logistics. Lunch time brought the opportunity of gathering among the participants.

The Closing Dinner took place in the restaurant La Torre in the FOCSA, a 42 stories building with a superb view of Habana specially at night.

UNIVERSIDAD DE LA HABANA

A selection of papers will appear in an special issue of Revista Investigación Operacional.
